

# Emissions Reporter

## Achieve compliance with CORSIA

Emissions Reporter is an easy-to-use carbon emissions reporting tool for operators of all sizes. This smart application is part of the Boeing Flight Data Analytics suite of fuel efficiency solutions that identifies broad opportunities to reduce fuel consumption, costs and emissions. Emissions Reporter simplifies the compliance reporting process and helps airlines to quickly and effortlessly meet the regulatory requirements of:

- CORSIA (Carbon Offsetting and Reduction Scheme for International Aviation)
- EU-ETS (EU Emissions Trading System)
- CH-ETS (Swiss Emissions Trading System)
- Coming soon: UK-ETS (UK - Emissions Trading System)

### What is CORSIA?

Developed by ICAO to support a goal of carbon neutral growth from 2020, CORSIA tracks carbon emissions for international flights. When emissions increase above this baseline target, airlines are now required to use carbon offsetting to ensure that carbon neutral growth from 2020 is achieved.

To learn more about CORSIA and to find out if you qualify, [jeppesen.com/corsia](http://jeppesen.com/corsia).

### CORSIA Timeline

- **Voluntary Phase: 2021–2026**
  - **Monitoring, Reporting and Verification of CO<sub>2</sub>:** Mandatory for all operators meeting the CORSIA eligibility criteria.
  - **Offsetting:** Only required for flights between states that have volunteered. The list includes all EU member states, United States, Canada, China, Australia, Mexico, UAE and many more!

Please reference the annual reporting deadline of April 30.
- **Second phase: 2027–2035**
  - **Offsetting:** becomes mandatory for all states except those with low aviation activity or in the least developed countries.

### Key Benefits

- A single tool to meet multiple carbon reporting schemes
- Accurate and automated report generation
- Secure, flexible and easy to use web-based tool
- Rapid implementation (1-2 weeks)
- Airline has full administrative control
- Efficient data validation and auditing process
- Enables compliance with legislative requirements
- Complements Boeing Fuel Dashboard solution
