

Manpower Planning - Resource Planning configuration

Course Description

Audience

This course addresses experienced resource planners with basic knowledge of Jeppesen Manpower Planning (JMP).

Prerequisites

Manpower knowledge

Duration

3 days

Course goals

The course gives you a thorough introduction to the configuration of JMP in regards to resource planning business needs.

After completing the course you will:

1. Have a strong understanding of Jeppesen Manpower concepts, features and their configuration as it relates to resource planning.
2. Be able to create, maintain and extend common configurations to meet evolving business needs.
3. Be able to trouble-shoot common issues.

All exercises are done using a generic flight data and rule set.
