Mr. Brandon Newman
Manager of Aerospace Optimization
Boeing Digital Solutions, Inc.
100 World Drive Suite 240
Peachtree City, GA 30269

Subject: Boeing Digital Solutions, Inc. Letter of Qualification (LOQ)

Dear Mr. Newman:

Boeing Digital Solutions, Inc. is qualified to develop Title 14 Code of Federal Regulations Part 97 (14 CFR 97), as outlined in Federal Aviation Administration (FAA) Advisory Circular Number 90-110, Instrument Flight Procedure Service Provider Authorization Guidance for Space-based Instrument Flight Procedures.

This Letter of Qualification serves as your authority from the FAA to perform all aspects of procedure design and maintenance of Part 97 space-based instrument flight procedures. This LOQ shall be retained and readily available to the FAA when requested.

You are required to advise the Flight Procedures & Airspace Group of your intention to initiate space-based instrument flight procedures in the National Airspace System. Sufficient notice must be given to allow Flight Procedures & Airspace Group to conduct oversight of your development activities.

If you have any questions, please do not hesitate to call Inspector Jim Rose, Unit Manager, Section O, Flight Procedures & Airspace Group, at 405-954-6424 or jim.rose@faa.gov.

Sincerely,

Mark Steinbicker
Manager, Flight Technologies
and Procedures Division
