# Jeppesen Mobile QuickClear

Simple. Secure. Quick. Complying with U.S. Customs procedures for international flights has never been easier.

Jeppesen and Airside Mobile, makers of the popular Mobile Passport app, have partnered to bring you Mobile QuickClear. General aviation and business aviation pilots now have a simple app that makes managing the process with U.S. Customs and Border Protection (CBP) easier than ever before. Easily file your APIS manifest by building your international trip itinerary and adding passengers in Mobile QuickClear. All passport information is securely and directly transferred from passengers' Mobile Passport application to Mobile QuickClear. Just click transmit and you're ready to roll. It's that easy.

⊘ Verified: Accurate electronic passport information is securely scanned and transferred using Mobile Passport's proven encryption and sharing technology, helping you ensure and demonstrate compliance with CBP

⊘ Connected: Approved by CBP for seamless APIS manifest submissions over the CBP eAPIS network—know right away when your manifest submission is approved

⊘ Documented: Record landing rights and any communications with CBP within the application

⊘ Enabled: Access detailed airport customs information from Jeppesen's comprehensive database

⊘ Protected: Passport data is securely managed by your mobile device, plus Mobile QuickClear and Mobile Passport are GDPR compliant

⊘ Streamlined: Simple validation of passengers and passports for matching APIS submission

No more manually collecting passport data from passengers and manually filling out manifests on the CBP eAPIS website.

Your passengers use the Mobile Passport *plus* app (available for Apple and Android) for free to securely transmit their verified information to the trip manifest that you create in Mobile QuickClear. Mobile Passport *plus* is a premium version of the app that provides additional convenient features, like use of the automated passport scanner and encrypted storage of passport profiles.

Once your trip itinerary is complete and all passengers have checked in by approving the transfer of their passport data, then you click transmit APIS. The fee per filing is $24.99.

CBP will review your submission and you will know right away when it's approved.
