Private Pilot Airman Certification Standards

This reprint of the FAA ACS provides:

- The areas of operation and tasks that are evaluated on the private pilot practical test.
- The references, objective, knowledge subjects, risk management elements, and skills that apply to each task.

Private Pilot Syllabus

The syllabus provides the framework for Part 141 and Part 61 ground and flight training and includes:

- The building-block method of teaching—new material builds on what a student has already mastered.
- Lesson references for the GFD Private Pilot textbook, online course, and Maneuvers manual.
- An appendix with tables that depict how the objectives and tasks listed in the ground and flight training lessons correspond to the aeronautical knowledge and flight tasks required by Part 141, Part 61, and the FAA Private Pilot ACS.

Private Pilot Maneuvers

This manual prepares you for your flight training and contains:

- Maneuvers grouped into categories based on similar operational characteristics and presented in the order in which they are typically introduced during training.
- Innovative graphics and step-by-step procedure descriptions to help you visualize and understand each maneuver.
- Expanded instructional guidance, helpful hints, and explanations of common errors.

Private Pilot Record Folder

The record folder enables you to document student progress, including:

- Ground lessons—date completed, total hours, and student grades.
- Flight lessons—flight time logged, maneuvers and procedures performed, and student grades.
- Flight checks and dates of 90-day endorsements for solo flight.

Private Pilot FAA Practical Test Study Guide

This guide provides guidance for you to pass your practical test with ease and presents:

- The information that you need to meet the knowledge, risk management, and skill requirements for each task in the ACS.
- An effective question and answer format to help you prepare for the oral portion of the test.
- Step-by-step diagrams with helpful hints and common errors to help you perform maneuvers proficiently during the flight.
