

Jeppesen Aviator Tools

Aviator Tools, a module available in Jeppesen Aviator, is a compilation of convenient, easy-to-use, regulatory approved tools to help your operations run smoothly and efficiently.

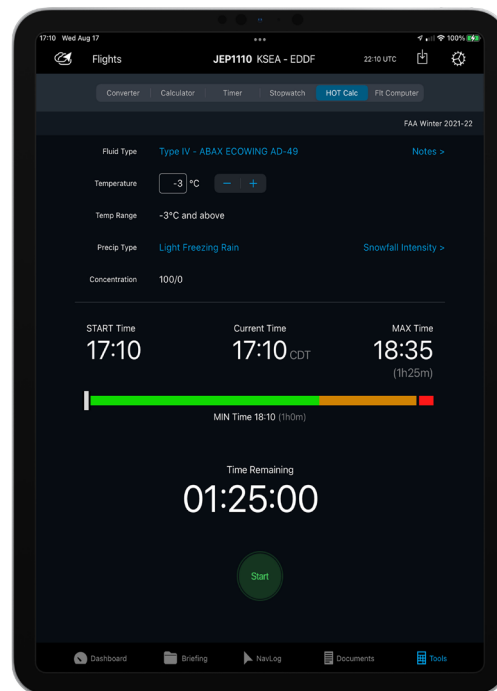

For your flight crew, Aviator Tools includes:

- Measurement conversion tool
- Calculator
- Timer
- Stopwatch
- De-icing holdover timer (HOT calc)

Aviator Tools also includes a flight computer to calculate frequently used flight measurements such as:

- Distance
- Endurance
- Fuel consumption
- Density altitude
- Pressure altitude
- Rate of descent
- Rate of descent mach
- Reserve fuel
- Speed
- Time
- Top of descent

- True altitude
- Wind component
- Fuel uplift
- Cold temperature correction

Aviator Tools is just one module in the Jeppesen Aviator suite of EFB solutions.
