Commercial Aviation Ground Training

Global Course Schedule

Worldwide Training
Jeppesen maintains approvals with many different Civil Aviation Authorities (CAAs) worldwide, and offers a wide range of basic through advanced training courses online or in live classroom settings. Courses are available for individual or group registration, and groups (minimum of seven attendees) can schedule custom class dates at multiple locations, or at any customer training facility. Pricing outlined in this schedule represents individual student costs, however discounted group pricing is available upon request.

Online Classroom Training
The Jeppesen Virtual Learning Program (VLP) is an online distance learning solution. VLP classes provide the same live classroom, instructor-led training, but are attended over the internet. The VLP classes are not computer-based training, and students are held to the same live classroom standards by way of interacting with instructors using webcams, voice and text communications. VLP provides customers with a more convenient and cost effective means to attending instructor-led training.

Live Classroom Training Locations
Regular or custom classes are available at the following locations:

- Denver, Colorado, United States (main campus)
- Kingdom of Bahrain
- Kuala Lumpur, Malaysia

Program Tailoring
Jeppesen can tailor training programs to fit your operational needs, including training on specific aircraft types, company operating specifications and specific software tools used on the job—such as electronic charting, flight planning, weather and airport analysis.

See next page for more Denver class info
Denver, Colorado, United States (continued)

Class Details

- All class times are 0800 to 1700 unless otherwise noted
- FOM-1 is an introduction course and is not required for U.S. FAA dispatcher certification
- FOM-2 is the 6-week classroom FAA Part 65 approved course
- FOM-2 VLP (Virtual Learning Program) is a hybrid of 160 hours of online class, followed by attendance in a 2-week Denver-based class
- FOM-2A is a 2-week advanced course for VLP graduates and those with significant experience and ATP knowledge levels
- FOM-2B is a 2-week CAA transition course available to graduates of a Jeppesen course located outside the U.S. who wish to convert their CAA certificate to the U.S. FAA certificate—this conversion course is an FAA Part 65 approved program
- FAA oral and practical examinations will be scheduled after class graduation—please verify departure dates during registration for FAA exam scheduling purposes
- FOM-2 graduates will receive discounted pricing on International Flight Ops scheduled after each FOM-2 class

Pricing

- FOM-2 and FOM-2 VLP: $4,495 that includes registration fees, tuition and student kit—FAA written and oral exam fees are not included
- FOM-2A (2-week advanced course): $2,475 that includes registration, course tuition and student kit—FAA written and oral exam fees not included
- FOM-2B (2-week CAA transition course): $975 that includes registration and course tuition—FAA written and oral exam fees not included—students must bring complete kit materials to Denver class—updated kits available for $450
- Students must pay FAA written and oral/practical examination fees directly to approved FAA testing centers and examiners (approximately $615)
- U.S. Veteran Affairs benefits available, contact us for details
