## Product Status Update

### Jeppesen Aviation Training Solutions

### Private Pilot Student Record Folder and Syllabus - Item # 10011930

### Instrument Pilot Student Record Folder and Syllabus - Item # 10054164

The following products have been discontinued by Jeppesen but will continue to be sold while supplies last;

- Private Pilot Student Record Folder and Syllabus - Item # 10011930
- Instrument Pilot Student Record Folder and Syllabus - Item # 10054164

The syllabus contents within both of these publications has been superseded by;

- GFD Private Pilot Syllabus, item 10001292 (textbook), or item 10464404 (eBook)
- GFD Instrument/Commercial Syllabus, item 10001785 (textbook), or item 10464411 (eBook)

The current GFD PPL and INST Syllabus products were both updated in 2016 to reflect the new Airman Certification Test Standards (ACS). The syllabus contained in the older items 10011930 & 10054164 still reflect the old Practical Test Standards (PTS) language. The FAA's change from PTS to ACS has not impacted the syllabus in terms of content or flow, so Jeppesen supports the continued use of the old syllabus in 10011930 and 10054164 by way of schools explaining to students that the following references to PTS should be interpreted to refer to the ACS.

#### **Private Pilot Student Record Folder and Syllabus (#10011930) references to Practical Testing Standards**

- Student Record Folder
  - 9<sup>th</sup> page — Desired Outcome Level / Description of Perform (Pe)
  - 10<sup>th</sup> page — Elements of SRM, first paragraph
